

CS:4400 Weekly Report

Team #5

For each meeting we will answer the following questions:

- List all the meetings held with duration of each meeting
 - What did we do this week?
 - Where do we need help?
 - Did we face any problems?
 - What is our plan for the next week?
-
1. We finished all assignments so far and we are waiting for feedback and grades. We have to update our logical design to include the table. Sriram will be doing that. Overall, we are doing very well and we plan to deliver an awesome project with some HTML websites. We will implement that using python, flask, and maybe some JavaScript.
